Available in a wide selection of fabrics and leathers.

Malmo

	H	D	W	Seat Height	Seat Depth	Seat Width	Clearance needed for full recline
All dimensions in mm/inches							
Standard Chair	1010/39.8	950/37.4	800/31.5	480/18.9	600/23.6	500/19.7	400/15.8
Large Chair	1010/39.8	970/38.2	880/34.7	480/18.9	600/23.6	580/22.8	400/15.8

All measurements are approximate and relate to the overall size of the item including soft arm cushions where fitted and back cushions. Power and Manual options available. Contrast stitching is available on leather pieces in a selection of leathers. Malmo comes with a black base as standard.

***Gliding and rocking function:**

On the manual option, to stop the chair from gliding/rocking, use the lock lever located at the back of the chair and slide it to the right by using your foot.

Both the manual and power options of the Malmo chair also come with an integrated safety lock which is automatically enabled when you recline back to approximately 65 degrees. At this point, the chair will stop gliding/rocking, even if the lever is 'unlocked' on the manual chair. To unlock the safety lock on both manual and power, return to the upright position, this will then enable the gliding/rocking motion.
